Objective

Aiming to expand knowledge and hands-on experience across different areas of computer science through continuous learning and experimentation. Dedicated to developing practical and creative projects that showcase problem-solving skills while growing both technically and personally.

Projects

Personal Portfolio Website

atsuchak.github.io ↗

- Built a personal portfolio website to share projects, skills, and experiences.
- Implemented a clean user interface with a responsive layout.
- **Tools Used:** HTML, CSS, JavaScript

Link Saver Application

[LinkVault](#) ↗

- Created a simple web app that lets users add, save, and search their important links.
- Used browser localStorage to keep data saved without needing a backend.
- **Tools Used:** HTML, CSS, JavaScript (localStorage)

Volunteering

UIU Project Show

United International University
Summer 2025
